Professional Summary

Full-Stack Web Developer (B.Sc. CSE, BRAC University) who builds and deploys end-to-end web applications with React/Next.js, Node.js/Express and FastAPI on PostgreSQL and MongoDB. Experienced in secure authentication, payment integration and REST API design, with internship experience shipping production interfaces.

Experience

Periscale AI | *Full-Stack Developer Intern* Aug 2026 – Present

- Designed and built the complete frontend of two live product pages for Periscale's AI-powered commerce platform, **E-Commerce Engine** and **Analytics**, using **Next.js**, **TypeScript** and **Tailwind CSS**.
- Implemented bilingual (**EN**/**BN**) switching and a responsive layout with pricing, FAQ, testimonials and demo-booking form.
- Built interactive UI visuals: live Meta/TikTok CAPI signal stream, Daraz/Shopify sync matrix, fraud pipeline.
- Built frontend features for **Gammify** (live gaming/gift-card store), integrated its payment gateway into checkout, and ran test orders and QA to find and fix broken pages.
- Integrated frontend with backend APIs for client project **Kirvy**; fixed integration glitches with the backend dev.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Vite, Tailwind CSS
Backend & Databases: Node.js, Express.js, FastAPI, PostgreSQL, MongoDB, Prisma ORM
Tools & Platforms: Git/GitHub, Linux (Ubuntu), Docker, Vercel, Render, Railway, Postman, Clerk Auth
Core Concepts: REST APIs, JWT Auth, Schema Design, CI/CD, Socket.io, Payment Gateways, Groq API

Projects

AI Resume Analyzer July 2026

Next.js, FastAPI, Groq, Docker, Prisma ORM, PostgreSQL, Clerk Live Demo | GitHub

- Built a full-stack AI resume analyzer (Next.js, FastAPI) scoring resumes against ATS standards and target job descriptions via the **Groq** API with structured **Pydantic** response schemas.
- Engineered a hybrid PDF parsing pipeline (`pdfplumber` extraction plus Groq-powered analysis) and an endpoint that rewrites weak bullets into quantified versions.
- Integrated **Clerk** authentication with per-user history; deployed the FastAPI backend on Railway (Docker) and Next.js frontend on Vercel, using Prisma ORM with a serverless Neon PostgreSQL instance.

Aurae – Premium E-Commerce Platform May 2026

React, Vite, Express.js, Prisma ORM, PostgreSQL, JWT Live Demo | GitHub

- Built a full-stack store with 6 product categories using a React 19/Vite frontend and Express.js REST API.
- Integrated the **SSLCommerz** payment gateway with IPN webhooks and server-side transaction verification, ensuring inventory is updated only after a payment is confirmed.
- Added **JWT** auth with SMTP OTP verification and a DB-level one-review-per-user constraint.

Social Media Platform March 2026

MERN Stack, Socket.io, JWT, Bcrypt, REST API Live Demo | GitHub

- Built a full-stack social platform (Express/Node.js, MongoDB) with **Bcrypt**-hashed passwords, stateless **JWT** sessions and 17 REST endpoints spanning auth, posts, threaded comments and user profiles.
- Added real-time updates via **Socket.io** and an RSS news feed; deployed on Vercel and Render via CI/CD.

Education

BRAC University | *B.Sc. in Computer Science and Engineering* Jan 2026

Bangladesh Noubahini School And College | *HSC (2019)* | *SSC (2017)* Khulna, Bangladesh

Leadership & Extra-Curricular

Robotics Club of BRAC University (ROBU) | *Assistant Director* 2023 – 2025

- Mentored 15–20 members in robotics; managed a ~BDT 40,000–50,000 budget; secured 2–3 sponsorships.
